## PROFESSIONAL EXPERIENCE

### Freelance GoHighLevel & AI Automation Specialist

*Self-Employed — Remote | Lagos, Nigeria*

- Delivered 50+ freelance GHL and automation projects, maintaining a 4.9-star average client rating
- Built a multi-stage NPS feedback automation system for Vistas Golf & Country Club, spanning Google Apps Script alert logic, a Looker Studio dashboard with calculated fields, and Brevo email automation
- Designed a full GHL system for a CrossFit/Pilates studio (Sagitta Fitness and Wellness, Australia), including a 30-day onboarding sequence, an attendance-based retention engine with Green/Amber/Red thresholds, and an auto-reply and response management system
- Built a six-stage GHL Member Experience Pipeline for a Vagaro-to-GHL migration (AOS Aesthetics), including Delinquent and Churned trigger stages

- Managed a client's email infrastructure buildout across 7 domains and 70 inboxes, configuring DKIM/DMARC/SPF and a 2-week Smartlead warmup sequence
- Delivered a Shopify-to-GHL Zapier deduplication and merge workflow, and a GHL-to-ServiceTitan integration
- Produced a Klaviyo email template system for a Dutch natural flower brand using a Figma-to-Klaviyo hybrid workflow
- Built a Voxer-based quote delivery automation pulling from Google Sheets, and a Mailchimp + Kit automation project
- Scoped and documented a Framer-to-GHL CRM integration as delivery specialist, mapping six customer journey types with full IF/THEN logic tables for an automotive repair company
- Authored a 3-tier automation proposal ($3,500 / $5,800 / $8,500) for a nonprofit volunteer management module, and a full AI-powered real estate lead-to-client automation proposal leveraging GHL's Voice AI and Reviews AI features
- Built and ranked 6 Fiverr service gigs (GHL real estate automation, GHL coaching CRM, GHL SaaS Mode, Monday.com + Make.com, n8n self-hosted, Make.com + AI agent) after competitive research across Fiverr and Upwork listings
